

BLOOD DONORS FORUM 2015-2016

The blood donor's forum of department of Biotechnology conducted an awareness class on Blood Donation and its importance. The awareness class was attended by the members of the blood forum 2015-2016. The class focused on the need for donating blood, the various criteria to be met by a donor etc. Young people are among the most committed group of blood donors and contribute a significant portion of the nation's blood supply. In fact, blood donations at high school and college, drives account for as much as 20 percent of donations during the academic year. The blood donor's forum appreciates the opportunity to introduce young people to the benefits of voluntary blood donation and community service, and is grateful for the generosity of student blood donors.

BLOOD DONATION CAMP 2015-2016

The Department of biotechnology, in association with KSACS and funded by IMA organized a voluntary blood donation camp on Wednesday, 6th January, 2016. The camp started at around 9:30 am and continued up to 2 pm, with a steady stream of donors throughout. Jubilee hall was utilized for a thorough medical check-up (weight, hemoglobin count and blood grouping) followed by consultation with the doctor for potential donors. They were provided with lime juice and food including biscuits and banana. The camp was successful with the active participation of more than 75 volunteers from among the students, faculty and staff members.
